

Requisite Technology to Showcase On-Demand Solutions at 2006 Aftermarket eForum

Company to Participate in RFID, Service Oriented Architecture Technology Panel

Chicago, Jul. 11, 2006 - Requisite Technology Inc., a leading provider of channel management, eCommerce and master data management solutions, will showcase its solutions at the 2006 Aftermarket eForum, July 17-19, at the Hyatt Regency O'Hare in Chicago. The Aftermarket eForum™ is produced by the Automotive Aftermarket Industry Association (AAIA) to provide an educational and business development symposium dedicated to e-commerce and supply chain technology solutions in the vehicle aftermarket.

On July 19 at 8 am (CDT), Requisite Technology will participate in an expert panel entitled, "New Technologies to Watch For." The panel will discuss the latest trends regarding radio frequency identification (RFID), Service Oriented Architecture, and industry standards. For more information, visit Requisite Technology at booth #8 or go to www.aftermarketeforum.com.
